I have questions about the “Stay Home, Stay Safe” executive order that went into effect on March 24 at 12:01am. Where can I find the latest information?

To combat the spread of COVID-19 in Michigan, Governor Whitmer signed the “Stay Home, Stay Safe” executive order. For at least the next three weeks, all Michigan businesses and operations must temporarily suspend in-person operations that are not necessary to sustain or protect life. For those who have questions about the state’s actions to mitigate the spread of coronavirus, please call the COVID-19 Hotline at 1-888-535-6136 between 8am- 5pm daily or visit <https://www.michigan.gov/coronavirus> for a summary of the executive order.

I have questions about the recommendation to wear a cloth face covering in public. Where can I find accurate information?

The Center for Disease Control (CDC) recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies), **especially** in areas of significant community-based transmission. Read below for details to consider when wearing a mask to protect yourself and others. For a full summary of CDC recommendations, call 800-232-4636 or visit the CDC website: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html>.

- The cloth face cover is meant to protect other people in case you are infected. You can spread COVID-19 even if you don’t feel sick.
- Continue to keep about 6 feet between yourself and others. The cloth face cover is not a substitute for social distancing.
- Cloth face coverings should not be placed on young children under age 2, anyone who has trouble breathing, or is unconscious, incapacitated or otherwise unable to remove the mask without assistance.
- The cloth face coverings recommended are not surgical masks or N-95 respirators. Those are critical supplies that must continue to be reserved for healthcare workers and other medical first responders, as recommended by current CDC guidance.

I have concerns about fake/scamming emails, phone calls and text messages with topics related to the COVID-19 crisis. Where can I get accurate information?

The Federal Communications Commission (FCC) has received reports of scam and hoax text message campaigns and scam robocalls offering free home testing kits, promoting bogus cures, selling health insurance, and preying on virus-related fears. Read below for a few tips to help you protect yourself from scams:

- **Do not** click on links in texts related to the virus, and check [cdc.gov/coronavirus](https://www.cdc.gov/coronavirus) for the most current information.
- **Be wary** of phone calls and text messages that claim to be from the World Health Organization (WHO), or charity organizations, asking for account information or money.
- Many consumers will receive checks as part of the federal government response to the coronavirus. **No one** will call or text you to verify your personal information or bank account details in order to "release" the funds.

For more information about scam calls and texts, visit the <https://www.fcc.gov/consumers> and the <https://www.fcc.gov/covid-scams>. You can also file a complaint about such scams at <https://www.fcc.gov/complaints>.
