I have questions about the most recent Epidemic Order that went into effect as of May 6th. Where can I find the latest information?

The Michigan Department of Health and Human Services (MDHHS) updated its COVID-19 Gatherings and Face Masks epidemic order to encourage safer outdoor activities. This order went into effect Thursday, May 6 and continues through Monday, May 31.

- Masks generally are not required outdoors unless a gathering has 100 or more people.
- Anyone who is fully vaccinated and not experiencing symptoms is not required to wear a mask at residential gatherings, including indoors.
- Expansion of the mask rule to children ages 2 to 4 which requires a good faith effort to ensure that these children wear masks while in gatherings at childcare facilities or camps. Went into effect April 26th, 2021.
- For more information around outdoor/sporting event regulations, find it here: <https://www.michigan.gov/coronavirus/0,9753,7-406-98163-558490--,00.html>.

The latest information is available at <https://www.michigan.gov/Coronavirus> and <https://www.cdc.gov/Coronavirus/>.

I have questions about the recommendation to wear a cloth face covering in public. Where can I find accurate information?

The Center for Disease Control (CDC) recommends wearing cloth face coverings over your nose and mouth in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies), especially in areas of significant community-based transmission. Read below for details to consider when wearing a mask to protect yourself and others. For a full summary of CDC recommendations, call 800-232-4636 or visit the CDC website: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html>.

- The cloth face cover is meant to protect other people in case you are infected. You can spread COVID-19 even if you don't feel sick.
- Continue to keep about 6 feet between yourself and others. The cloth face cover is not a substitute for social distancing.
- Cloth face coverings should **NOT** be placed on young children under age 2, anyone who has trouble breathing, or is unconscious, incapacitated or otherwise unable to remove the mask without assistance.
- The cloth face coverings recommended are not surgical masks or N-95 respirators. Those are critical supplies that must continue to be reserved for healthcare workers and other medical first responders, as recommended by current CDC guidance.

I have concerns about fake/scamming emails, phone calls and text messages with topics related to the COVID-19 crisis. Where can I get accurate information?

The **Federal Communications Commission (FCC)** has received reports of scam and hoax text message campaigns and scam robocalls offering free home testing kits, promoting bogus cures, selling health insurance, and preying on virus-related fears. Read below for a few tips to help you protect yourself from scams:

- **Do not** click on links in texts related to the virus, and check [cdc.gov/coronavirus](https://www.cdc.gov/coronavirus) for the most current information.
- **Be wary** of phone calls and text messages that claim to be from the World Health Organization (WHO), or charity organizations, asking for account information or money.
- Many consumers will receive checks as part of the federal government response to the coronavirus. **No one** will call or text you to verify your personal information or bank account details in order to "release" the funds.

For more information about scam calls and texts, visit the www.fcc.gov/consumers and the www.fcc.gov/covid-scams. You can also file a complaint about such scams at www.fcc.gov/complaints.

UPDATE: Beware of scammers spoofing the Kent County Health Department's main number 616-632-7100, calling residents to offer medication while asking for Medicaid and Medicare numbers for billing purposes. Anyone who receives a phone call they suspect to be a scam is advised to hang up.

2-1-1's Fraud Support Program - 2-1-1 in West Michigan has partnered with the Cybercrime Support Network to make sure that victims of cybercrime have the resources they need while guiding them through the process of reporting, recovering, and reinforcing their security.
